

Newsletter: Dauntless – Spring

It's been a positive start to the term for our group of four pupils. All pupils have been working hard to push themselves outside their comfort zones, particularly with their academic learning, and it's been great to see growing confidence across the group.

Our Year 10 pupils are now timetabled to attend college all day on Mondays, which marks an exciting and important step towards greater independence and preparation for post-16 pathways.

In PE, pupils have been completing escape room challenges, which they have thoroughly enjoyed so far. Pupils will continue these for the rest of the term, further developing teamwork, communication and problem-solving skills.

In History, pupils are exploring medieval warfare, learning about weapons, tactics and how battles were fought, while in Design Technology they have been designing and creating their own stadiums, combining creativity with practical skills and planning.

Before the break, the class also won the Christmas classroom decorating competition, choosing a theme inspired by *Elf* the movie and focusing on recycled decorations. Pupils showed great creativity and teamwork, making many of the decorations themselves.

With such a strong and encouraging start, we are really looking forward to the term ahead and continuing to build on this positive momentum.
