

# TRIUMPH SUMMER TERM

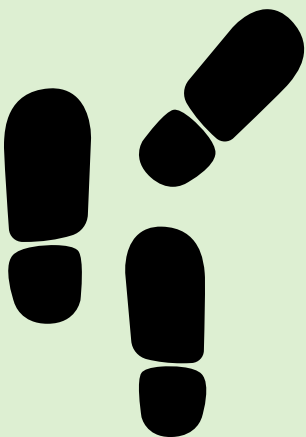

## THE CASE OF THE PHANTOM GOAL

### What we are learning about

This term, we will take part in an exciting topic that combines football, science and detective work. Through solving a mystery at the match, we will learn about the history of football, how footballs move through the air, and how reaction time helps goalkeepers make important saves. We will also discover how clues, fingerprints and careful investigations are used to solve crimes. Throughout the topic, we will develop our writing, speaking, teamwork and problem-solving skills through a range of fun and engaging activities.
