

Maths:

This term, we will learn about money, time, and shapes. We will recognise coins and notes, work out totals and change, and learn to tell the time on both analogue and digital clocks. We will explore 2D and 3D shapes, describe their properties, and look at symmetry. We will also learn about position and movement, including turns, directions, and using coordinates to describe where things are.

Science:

This term, we will learn about sound and the environment. We will explore how sound is made by vibrations, how we hear, and how sounds can be loud or quiet, high or low. We will also learn about habitats, how plants and animals are adapted to live there, and how climate change and waste can harm our planet

Humanities:

This term, we will learn about the past, the seaside, and the wider world. We will explore old and new objects and learn about the Tudors, including a king and how people lived, through fun activities like dressing up and building. We will also discover the seaside by exploring sand, shells, and sea sounds, and finding out what floats and sinks. We will learn about maps, the countries in the United Kingdom, and continents around the world, comparing life in different places. We will also explore how transport has changed over time and learn about famous pioneers who helped make travel faster and easier.

Key days of the week:

Monday- P.E

Tuesday- Roots

Wednesday- P.E

Thursday- Cooking

Warriors' newsletter

Summer term 2026

English:

This term, we will explore three exciting books: The Day the Crayons Quit, Where the Wild Things Are, and The Lost Words. We will learn how to write letters, stories, and poems by thinking about characters' feelings, using our imagination, and describing things in interesting ways. We will practise editing our work to make it even better and share our writing with others.

PSHE: This term, we will learn how to look after our physical and mental health by keeping a balanced lifestyle and taking care of our teeth. We will explore how our bodies grow and change during puberty, including learning about personal hygiene and how to manage these changes. We will also learn how to stay safe by understanding how to use medicines properly and recognising the risks of everyday household products and drugs.
