AUTUMN TERM 2 NEWSLETTER

Meet the TEAM!

Hello, I'm Shannon, and I have worked at Jubilee School for the past five years. During this time, I have supported students with SEMH needs of all ages, both in the classroom and through 1:1 support. I have worked alongside many of the students in Victory since they first joined the school and have been a consistent voice and advocate for them throughout their journey. I believe positive relationships, trust and encouragement are key to helping young people build confidence, overcome challenges and achieve their full potential.

Celebration

This half term, the Victory tutor group have shown great commitment by fully engaging with their Functional Skills assessments, including both live assessments and mock exams in core subjects. Students have approached these important assessments with maturity, resilience and a positive attitude, demonstrating the progress they have made throughout the year. We are incredibly proud of the effort they have shown and look forward to celebrating their achievements and continued success.

Our Learning Focus

📚 English

Students will follow a bespoke programme that develops skills across GCSE English Language and Functional Skills English. They will also prepare for their Functional Skills exams, with Reading in November and Writing in December.

🔢 Maths

Following student requests, the focus this term will be on completing and reviewing past papers to build confidence and exam readiness.

🍳 Food Technology

Students are working towards their BTEC Level 2 qualification, creating dishes from Italy, Mexico, and America. They will also support the Macmillan Coffee Morning through food preparation activities.

🎱 PE

This term, students will take part in off-site snooker sessions, developing concentration, coordination, and teamwork.

💚 PSHE

Students will explore mental health, pressure, and stress, considering how these themes have affected people throughout history and how they can be managed today.

🎨 Art & DT

Students will enter a competition to design a new Art Room door sign. They will then work with DT to turn their designs into finished products.
